Steamship Company

# New England is Vacationland

*Plymouth Rock, Plymouth, Mass.*

HOSE to whom has been given the good fortune of spending a vacation in Southern New England, need not be urged to come again, for we see them year after year enjoying to the full the ever changing, yet changeless beauty and variety that may be had in this glorious vacationland.

Visitors for the first time revel in the miles of splendid white sand beaches, thrill with the delightful vistas of the hills, and enjoy to the utmost the excellent facilities for bathing, boating, fishing and a score of other recreations that build healthy, happy bodies, and imbue one with a physical sense of fitness that lasts long after vacation days are over.

The annual family conference may be admirably solved by the magic words, "New England is Vacationland," for here one will find an amazing quantity of recreational possibilities. The clean, invigorating tang of the sea that permeates for miles inland the surrounding territory, smart hotels for those who would spend their vacation in ease and luxury, the historic appeal of the many homes that date back to the Pilgrims; all these are just a few of the attributes that have made Southern New England a vacationland of infinite variety.

The "Yankee Clipper," finest afternoon train in America, extra fare, operates between Boston and New York on a fast  $4\frac{3}{4}$  hours schedule. Daily except Saturdays and Sundays.

Large and comfortable steamers of the New England Steamship Lines pass under Hell Gate Bridge daily, following the famous Inland Water Route to Southern New England Points.

# Hotels and Boarding Cottages

## on the lines of the

# New York, New Haven and Hartford Railroad

There is probably no corresponding area in the United States which so well deserves the title of "America's Vacationland" as does New England. Nowhere in the country is there a region so lavishly endowed with every promise of happy days of recreation.

**T**O READ a map of New England is to call the roll of the nation's scenic, historic and cultural centers. To know New England is to know America—the real America of tradition. Every American should regard it a duty—although a wonderfully pleasant one—to thoroughly acquaint himself with this land to which he, his father, or his fathers before him, have come as immigrants.

Only by acquiring something of this background—something of this new national spirit called Americanism which was born, nourished and matured in New England—can he acquire that intense and splendid spirit of national patriotism which the founders of the American republic experienced and inspired.

This book has been issued to the end that the recreational and cultural advantages of New England may be more fully appreciated and exercised by all.
